To whom it may concern:

This letter confirms that A-LIGN has completed a Type 2 SOC 1 examination of the 365 Data Centers' (the "Company") Colocation Services System.

The scope of the SOC 1 examination included the following control objectives:

- Physical Security
- Environmental Security

The examination was completed based on the assertions made by the Company and in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA).

The examination of management's assertions, as included in the examination report, included procedures to obtain evidence about the fairness of the presentation of the description, the suitability of the design, and operating effectiveness of the controls to achieve the related control objectives stated in the description. Based on our examination we have obtained reasonable assurance that the controls were suitably designed and operating effectively throughout the period of May 1, 2016 through April 30, 2017.

Please don't hesitate to contact me if you have any questions.
